

A CONVERSATION PIECE - AN ARMCHAIR WORTH TALKING ABOUT FROM UIMAGE

Its compact and comfortable shape and the armchair's narrow depth makes it suitable for smaller spaces and ideal for urban living. Its strong robust construction also makes it perfect for a waiting room, hotel foyer or reception area.

Anders Klem, Designer says: "A Conversation Piece is a very organic looking chair with continuous curving lines and the heart shaped shell adds that little bit of drama to the design. It's full of interesting details like the way the back leg becomes a fork that holds the backrest and seat together."

We were really focused on making the chair as comfortable as possible. It's always important that the person sitting can move around and change position while still having the proper support for the body and that's exactly what we achieved with the curved open shell and the angles of the chair."

A Conversation Piece is an armchair that encourages relaxation and openness, unwinding and having a conversation with friends.

The armchair's attractive profile with its interplay of defined curves is inspired by the free-flowing organic furniture often found in the Scandinavian design story. A Conversation Piece is an armchair to linger on; a place for reflection, finding peace, calmness and balance.

A solid frame in oiled oak keeps the grain of the wood visible and highlights the use of natural materials. Carefully chosen Scandinavian colors and fabrics of the upholstery compliment the natural wood of the oak. The armchair's final look is extremely flexible as the interchangeable upholstery is easy to remove and update if you want a new color.

PRODUCT FACTS

| | |
|----------|--|
| Name | A Conversation Piece armchair |
| Designer | Anders Klem, 2018 |
| Material | Solid oak, polyester, laminated veneer |
| Size | H: 83 x W: 70 x D: 83 cm |
