

## THE CONVENIENCE BENCH - EXTRA SEATING AND SHELVING IN ONE SPACE SAVIOUR FROM UIMAGE

Convenience is a multifunctional bench with a built-in shelf that gives you all sorts of seating and storage options. Light, flexible and robust, the Convenience shelf-seater-side table is an ideal accompaniment to urban living. Its clever design makes the most out of the space available and is particularly useful in an apartment or town house.

Made in solid wood, with brass and leather details, Convenience has a minimal and clean design which adds a touch of Nordic simplicity to the interior. Stable and secure, Convenience is designed so that multiple benches can easily be stacked on top of each enabling lots of shelving for storage while at the same time ensuring that extra seating is always available when guests arrive.

The convenient and stylish brass bar around the lower shelf of Convenience means you can leave your things safely inside even when you move it around to be used as seating or a side table.

Soren Ravn Christensen, Designer: "I really like the flexibility of Convenience. Bench, shelf, side table in multiple combinations, it's very neat."

"It's got a lovely simple design but is a cleverly thought out solution to today's space restricted needs. If you have friends over and you don't want to have chairs everywhere you just take it down from the shelf and you can sit on it and then put it back up there afterwards."

### PRODUCT FACTS
