

## KEEP THINGS CLOSE AT HAND AT YOUR FAVOURITE 'MY SPOT' SIDE TABLE FROM UIMAGE

My Spot is a stylish side table ideal for those places in your interior where you need to put things away but still keep them within reach. My Spot combines classic clean and minimal Scandinavian design with the modern twist of a built-in USB charging hub. This enables you to keep your phone or tablet just by your side where you need them most.

Consisting of a table top and lower shelf, My Spot has a graceful slim profile accentuated by long thin wooden legs that highlight the delicate metal details in its design. The legs themselves have a clever groove at the bottom which enables the charger cable to be threaded through them and kept out of sight. My Spot has a soft triangular shape with rounded organic corners that make it extra suitable for tight spaces.

Jonas Søndergaard, Designer: "I think this is a very useful piece of furniture which also has this fantastic USB port function. For obvious reasons you would keep the table where you quite often have your phone or tablet close to you and in need of a charge, while you are sitting there with it.

The table has such a light and attractive Nordic design language that it looks great as a free-standing table even if you don't choose to add on the USB option at all.

I love it where the metal of the bracket meets the end-grain of the wood and you see a lovely meeting between the cold and warmth of the two materials."

### PRODUCT FACTS
